

Missouri Continuing Planning Process

2001-2005

Table of Contents

[Overview](#) 1
[Water Quality Chart](#) 2
[Abstract](#) 3

Section I: Introduction

What is the Continuing Planning Process? 9
The Continuing Planning Process Elements 9
Continuing Planning Process Summary 10
Continuing Planning Process Development 10
Description of Missouri’s Water Quality Management Process 11
Missouri Water Resources and Land Use 12
 Prairie Region 13
 Ozark Plateau 14
 The Mississippi Embayment, Bootheel Region 14
Water Quality Planning 14
 Point Source Controls 14
 Nonpoint Source Controls 15
 List of Impaired Water or the 303(d) List and TMDLs 15
 National Water Quality Inventory: Section 305(b) Report 16
 Funding 16
References 16
Public Involvement 17
 Web sites 17
 References and Notes 18

Section II: Nine Continuing Planning Process Elements

[Element 1](#) *Process for developing effluent limits and schedules of compliance* 19
Summary 19
Requirements Under the Clean Water Act 20
Water Protection 20
 Technology-Based Limits 20
 Water Quality-Based Limits 21
 Effluent Regulations 23
 Best Management Practices 23
 References 24
 Schedules for Compliance 24
 References 25
Water Pollution Control Program Permit Descriptions and Applicable Fees 25
 Site-Specific Permits 25
 General Permits 26

Permitted Fees	26
Permits from the Water Pollution Control Program Usually Involve the Following Activities ...	28
Wastewater Treatment Permit Process Controls: General Explanation.....	28
Industrial Wastewater Treatment	29
Domestic Wastewater Treatment	29
Publicly Owned Treatment Works (POTWs) Systems/Pretreatment Component.....	30
Domestic Sludge.....	30
Industrial Sludge.....	30
Wastewater Use for Land Application.....	30
Domestic and Industrial Wastewater Irrigation	30
Treatment System Design and Construction Requirements.....	31
Land Application Unit	32
References	32
Pretreatment Component Management: Effluent and Sludge Control.....	33
State Pretreatment Responsibilities	35
References	35
General Permitting for Concentrated Animal Feeding Operations (CAFOs).....	35
References	37
Sources of Information.....	38
Operator Certifications/Technical Assistance Program (TAP).....	38
Underground Injection Control: Groundwater Management.....	39
Aquifer Recharge Wells.....	39
Aquifer Remediation Wells.....	39
Septic Systems/Drain Field Disposals.....	39
Groundwater Heat Pump Operating Permit.....	39
Underground Injection Control (UIC) Permits	40
Source Water Protection.....	40
References	40
Sources of Information.....	41
Storm Water Management	41
Exemptions.....	41
Land Disturbance	42
Land Disturbances Within Valuable Resource Areas	42
Municipalities.....	42
References	42
Sources of Information.....	43
404/401 Certifications	43
Wetlands.....	44
References	44
Sources of Information.....	45
Enforcement/Compliance.....	45
Compliance Data Management	46
Compliance Reports	46
References	47

<i>Element 2 Process for incorporating elements of waste treatment plans and basin plans</i>	48
Summary	48
Sections 208 and 209 of the Clean Water Act	48
Section 208: Area-wide Waste Treatment Planning	49
Section 209: Basin Planning	49
References	50
<i>Element 3 Process for development of total maximum daily loads and effluent limits</i>	51
Summary	51
TMDLs and Public Participation.....	51
Public Participation and the 303(d)Listing Process	52
TMDL Development	52
TMDL Plans.....	54
Listing of Impaired Waters	54
Data Requirements	55
Priority Criteria	56
Total Maximum Daily Load: “Pollution Budget” for Point and Nonpoint Sources	57
Total Maximum Daily Load (TMDL) Strategy	58
Sections of a TMDL document	58
Permit Review in 303(d) Waters.....	61
Effluent Limitation Requirements.....	61
U. S. Environmental Protection Agency (EPA) Guidance.....	61
Cross-jurisdictional TMDL Water Bodies	62
Water Quality Planning.....	62
2001 Status	63
References	63
<i>Element 4 Process for updating and maintaining water quality management plans</i>	64
Summary	64
Continuous Water Quality Planning	64
Area-Wide Waste Treatment Planning	66
Basin Planning.....	66
References	68
Finance: Missouri’s Intended Use Plan.....	68
List of Programs in the Department’s Intended Use Plan.....	69
Sources of Information.....	69
Watershed Priorities: Unified Watershed Assessment (UWA).....	70
Nonpoint Source Management Planning (NPSMP)	71
Nonpoint Source Management Controls	72
Nonpoint Source Management Plan.....	72
Nonpoint Source Management and Restoration: Section 319	72
Restoration	73
Nonpoint Source Assessment.....	74
Monitoring and Assessment.....	74
Plans for Comprehensive Assessment: Large Rivers.....	75
Sediment Monitoring of Large Rivers	75

Monitoring the Mississippi and Missouri Rivers	75
Intensive Surveys	75
Lakes	76
Lakes of Missouri Volunteer Monitoring Program.....	76
Special Studies	76
Aquatic Biological Community Data.....	77
Areas of Research in Nonpoint Source Pollution.....	77
Wetlands.....	77
Groundwater.....	77
Area-wide Trends in Water Quality.....	77
Aquatic Macro-Invertebrate Monitoring Program: Biological Monitoring	78
Wadeable Streams (Small Rivers and Creeks).....	78
Fixed Station Monitoring Network	78
Fixed Station Fish Tissue Network	78
Volunteer Monitoring.....	79
Volunteer Water Quality Monitoring Program	79
Toxics Monitoring.....	79
Coordination of the Monitoring Effort.....	79
Areas of Research in Nonpoint Source Pollution.....	80
Public Involvement	80
Assessment Methodology.....	80
Methods for Assessing Compliance with Water Quality Standards	81
Enforcement	84
Enforcement Procedures	84
Regional and Local Satellite Offices.....	85
Inspections.....	85
Engineering	86
Geographical Information Systems.....	87
Water Quality Information Systems.....	88
Automated Tracking Systems	89
Water Quality Project Funding: Grants and Loans	90
Nonpoint Source	91
Point Source	91
Intended Use Plan.....	91
Capitalization Grants for Clean Water State Revolving Funds.....	92
Federal Special Infrastructure Grant (FSIG).....	93
State Hardship Loan Program	93
Voter Approved/Bond Financing	93
Storm Water Grant and Loan Program	93
Water Pollution Equipment Sales Tax Exemption.....	93
Cooperative Financing: Missouri Water and Wastewater Review Committee.....	94
Sources of Information.....	94
Waste Management Improvements: The Missouri Approach to Concentrated Animal Feeding Operations (CAFOs)	94
Mining and Silviculture.....	97
Mining: Surface and Subsurface Mining	97

Sources of Information.....	97
Silviculture: Nonpoint Source Reduction: The ‘Chip Mill’ Issue.....	97
State Water Plan.....	98
Phase I	98
Phase II	98
Strategies for Improving Missouri’s Surface Water Resources.....	99
Water Pollution Control Strategies	99
References	102
Sources of Information	102

Element 5 Process for ensuring adequate authority for intergovernmental cooperation..... 103

Summary	103
Authorized Intergovernmental Cooperation.....	103
Clean Water Commission: Designated Water Pollution Control Agency	104
Clean Water Commission: Supporting Programs	105
Water Quality Coordinating Committee	105
Conservation Federation of Missouri, Department of Conservation, Department of Natural Resources: Citizen Involvement.....	105
Missouri Watershed Inventory and Assessment Project: Framework for Watershed Restoration Strategies.....	105
Memorandums of Understanding and Agreement	106
Performance Partnership Agreement.....	106
Memorandums of Understanding	106
Memorandums of Agreement.....	108
Public Drinking Water and the Water Pollution Control Effort.....	108
Clean Water Act Grants Funding Sources	109
Financial Assistance.....	109
Municipal Wastewater Treatment Financing.....	110
Animal Waste Treatment Financing	110
Clean Water State Revolving Fund.....	110
Missouri’s Nonpoint Source Management Plan	110
Water Quality Standards Development.....	111
Cooperative Field Effort.....	111
Environmental Services Program.....	111
Geological Survey and Resource Assessment Division.....	112
The Technical Assistance Program (TAP).....	113
Web Access to Water Resource Information	114
References	114

Element 6 Process for establishing and assuring adequate implementation of water quality standards and schedules of compliance 115

Summary	115
Water Quality Standards	115
Review and Revision.....	117
Designated Use or Uses That Are Presumed to Currently Exist.....	117
Narrative Criteria.....	117

Numeric Criteria.....	117
Nutrient Criteria	118
Biological Criteria.....	118
Implementation of Water Quality Standards.....	118
Water Quality Standards: Identification of Functional Criteria.....	118
Why States Review Standards Every Three Years	119
Use Attainability Analysis	119
Clean Water Act: Section 304(a) Criteria Recommendations Provide	
Assistance in Setting Water Quality Standards.....	120
Anti-degradation.....	120
Variances	121
Mixing Zone.....	122
Economic Impacts.....	122
Site-Specific Guidelines.....	122
Schedules of Compliance	122
Public Involvement	122
Beneficial Use Support Status of Missouri Classified Waters.....	123
Individual Use Support Summary for Classified Streams	124
Major Water Pollution Sources in Missouri Classified Waters	125
Major Contaminants in Missouri Classified Waters	126
Sources of Technical Assistance	126
References	126
<u>Element 7</u> <i>Process for assuring adequate controls over the disposition of all residual waste ..</i>	129
Summary	129
Sludge Management.....	129
Biosolids.....	129
Construction Permits.....	130
Operating Permits.....	130
Industrial Sludge/Residuals.....	130
Publicly Operated Treatment Works System: Sludge Byproduct.....	131
Treatment System Design and Construction: Biosolids.....	131
Domestic Sludge Land Application: Biosolids	132
References	133
<u>Element 8</u> <i>Process for developing an inventory and ranking in order of priority of needs for construction of waste treatment works</i>	135
Summary	135
Construction Grants Program	135
Process of Inventory and Ranking	136
Inventory of Identified Public Wastewater Works Construction Needs	136
Eligible Projects	136
FY 2001 Clean Water State Revolving Fund Intended Use Plan	137
Applications	137
Status of Municipal Wastewater Treatment Infrastructure	137
Cooperative Financing: Missouri Water and Wastewater Review Committee.....	138

References	139
<i>Element 9 Process of determining priority of permit issuance</i>	140
Summary	140
Permit Timelines	140
General Permits	140
Site-Specific Permits	141
Regional Offices.....	141
Central State Offices	142
Permit Renewals.....	142
Public Notice.....	143
References	144
<u>Section III Future Developments</u>	
Summary	145
Future Development and Water Quality Impact	145
A List of the Issues in Water Quality.....	147
Future Developments	148
Administration and Budget	148
Program Budget.....	148
Information Resources	148
Program Support	148
Permitting.....	149
New Permitting Timelines	149
Phase II Storm Water	149
Permitting in Impaired Waters	149
Proposed Permit Efficiency Improvements.....	149
Improvements in Waste Management	150
Planning.....	152
Water Quality Standards Triennial Review	152
Total Maximum Daily Loads (TMDL) and the 303(d) List.....	153
Nonpoint Source Water Pollution	154
Geographic Information Systems.....	154
Groundwater Protection	154
Finance	155
Clean Water State Revolving Fund Program	155
Expanded Use of the State Revolving Fund.....	156
Small Community Financing	157
Federal Allocation for Missouri	157
Enforcement	157
Engineering	158
